

To make a puppet theatre to act out the story of Tommy and his friends you will need an empty cereal box, some glue and a pair of scissors. Follow these easy instructions:

- Stick this card to the cereal box
- Cut the back off the cereal box but leave all four sides on
- Your puppet theatre will now stand up on its own
- Cut around the dotted line through the card and the cereal box
- Get acting - use your puppets!

Important: Get an adult to help you with all the cutting out
